T is well known that pimples and blackheads (acne) and boils are often caused by errors of diet.

Fleischmann's Yeast is now being recommended for these embarrassing and painful skin troubles because fresh yeast corrects the errors of diet which cause them.

The surgeon of one important New York hospital states: "I have used yeast extensively and found it invaluable in curing boils." When 17 cases of pimples (acne) were treated with Fleischmann's Yeast at hospitals in New York and Philadelphia the results were remarkable. Typical of these was the case of a young man who had suffered with pimples for three years. He ate three cakes of Fleischmann's fresh yeast daily before meals. In five weeks the eruption had cleared
